## Overview

London Corporate Training (LCT) was approached by the Royal Air Force of Oman (RAFO) to provide a 10-day Advanced Project Management Programme for their senior officers.

The training aimed at building proficiency in contract management, schedule measurement, cost control, and stakeholder management.

## Challenges

**Varied Experience Levels:** Senior officers had different levels of project management knowledge.

**Balancing Theory & Practice:** The need to apply concepts in real-world scenarios.

**Cultural & Organisational Factors:** Resistance to change in a structured military setting.

## Course Outcomes

- Delegates demonstrated improved project management capabilities, applying new strategies to their departments.
- Increased confidence in leadership, risk assessment, and stakeholder engagement.
- Enhanced understanding of contract law, procurement processes, and financial oversight.
- A strong foundation for collaboration and knowledge sharing within RAFO's teams.

## Impact & Testimonials

"This programme was an excellent learning experience. The intensity and depth of the course was remarkable, challenging us to think and apply new methods in real time. It helped me understand the key aspects of strategic planning, risk management, and contract management.

I must applaud the trainers for their knowledge and the ability to explain complex concepts in a way that was easy to understand and apply. They were patient, engaging, and created a comfortable learning environment that encouraged us to ask questions and discuss openly."
